3575 Computer Terminals

3577 Computer Peripheral Equipment, N.E.C.

5045 Computers and Computer Peripheral Equipment & Software

5065 Electronic Parts & Equipment

7378 Computer Maintenance & Repair

DbaseDesign, Inc. Company Background

DbaseDesign, Inc. (DDI) is a small woman-owned minority business established in 1995. DDI has sold and repaired computer equipment to small businesses and city agencies since our inception. DDI manufactures and distributes IBM compatible computers to various city of Philadelphia agencies and to the commercial market. DDI, also sells a wide variety of computer hardware, peripherals, software and supplies, representing nearly twelve hundred manufacturers and 80,000 products.

DbaseDesign, Inc is a full service computer repair, low cost networking and software development company specializing in Web Development and applications that are database driven.

DbaseDesign, Inc president and sole stockholder, Maria DiIenno, has fourteen years of management and sales experience in the computer field and the rest of the DDI team averages over nine years experience. DDI used this experience to build a company dedicated to producing, servicing and supporting quality microcomputer systems and associated printers, networks and other hardware and software, which we are proud to market and sell to both commercial and government interests.

Advantages Government Agencies can expect from DbaseDesign, Inc.

DbaseDesign, Inc has excellent references in both the government and commercial markets that prospective customers can check before the procurement process even begins. DDI wants you to feel confident that we can and will fulfill the terms for any contract regarding the products and services that we provide.

DbaseDesign, Inc has over 3 years experience dealing with Federal Government Agencies and over 10 years experience with the State of PA under the PA State Contract. DDI's contract allows the PA state government and local municipalities to order a vast array of computers, printers, networks and associated hardware and software under our NJ State Contract. Installation, repair and service can also be ordered under this contract for networks, computers and printers.

Being a computer manufacturer, DDI can also build custom computers to meet specific needs and requirements. DDI has the capability to integrate the specific computer hardware you need to satisfy whatever specific requirements you may have, including the latest technology available, into our computer systems. DDI computers can be delivered network ready and are completely compatible with all major operating systems.

DbaseDesign, Inc. offers a standard one year parts and labor warranty on all the DDI computers we sell. Many of our government accounts choose our optional one year on site warranty coverage, and any additional extended warranties are negotiated to meet your requirements. Customer service and technical support are available at our local office in Philadelphia, PA during standard working hours.

DbaseDesign, Inc. has a consistent track record of meeting or exceeding required delivery schedules. When we agree to meet your delivery schedule, you will get what you ordered, not excuses. As we manufacture our own computers, we have a large inventory of computer hardware, peripherals, software and supplies in stock at any given time. When we have the product you need in stock, you can get same day shipment. In addition, we have negotiated same day drop shipment arrangements with our primary suppliers which encompass products from over 1000 of the major hardware, software and peripheral manufacturers in the computer field.

DbaseDesign, Inc. Key Personnel

Maria D'Amore - President

Supervises the company's daily operations, the allocation of corporate resources, and is in charge of strategic planning. Mrs. DiIenno's, 14 years of experience in the computer field includes computer hardware purchasing, inventory and resource management, accounting, auditing, financial planning, sales management and corporate management.

Steven J. DiIenno - Vice President

Oversees the firms overall daily sales and marketing operations at our Philadelphia, Pennsylvania location. He is directly involved with contract negotiations, supervising marketing and sales activities, and coordinating business development activities at that location. Mr. DiIenno has 14 years experience in the computer field including computer assembly, database design, sales manager and corporate management. Mr. DiIenno is a Graduate of the American University with a Degree in Computer Science and is currently attending school towards his Master Degree.

DbaseDesign, Inc. Base Computer Systems

All Base Systems can be ordered as Mini-Tower, Desktop or Full Tower Units

DDI CEL466 Celeron 950MHz

DDI CEL500 Celeron 1GHz

DDI PIII450 Pentium III 866MHz

DDI PIII500 Pentium III 933MHz

DDI PIII550 Pentium III 1GHz

DDI PIII600 Pentium III 1.2GHz

DDI P4-1.3 Pentium 4 1.3GHz

DDI P4-1.5 Pentium 4 1.5GHz

DDI P4-1.7 Pentium 4 1.7GHz

DDI P4-1.9 Pentium 4 1.9GHz

DDI P4-2.0 Pentium 4 2.0GHz

DDI P4-2.4 Pentium 4 2.4GHz

All models can be ordered with a variety of different options and configurations.
